

Keep Strivin

Ayo & Teo

I guess Imma keep striving can't do no complaining
And y'all been first in line, we was the one waiting
I guess we gone keep on writing I heard they be shading
And our circle stay solid tell me why y'all trading?
This our vibe that we bonded everybody breaking
It's all we ever wanted yeah how could you take it
I felt under now I'm high like spaceship
Off the gunja the ZaZa I faced it

We got marijuana you can't get
I might roll up a blunt and you can't hit it
Stuffing the runtz and it's done I can't fit it
And in the club we went up they flashed titties
Yeah uh they flash titties
Already know wassup when we in the city
Already know wassup up yuh get pretty
Already know
Let's get busy
Already know
Girl I already know
That you ain't a hoe
So what you waiting for
Let's get busy

I guess Imma keep striving can't do no complaining
And y'all been first in line, we was the one waiting
I guess we gone keep on writing I heard they be shading
And our circle stay solid tell me why y'all trading?
This our vibe that we bonded everybody breaking
It's all we ever wanted yeah how could you take it
I felt under now I'm high like spaceship
Off the gunja the ZaZa I faced it

And they all fascinated by the moves
Always winning never lose shit
Never was a comp but these niggas like competing
Kicked the bad energy out yea we peeped it
Shawty tryna fuck me in the nova and the secret
She said she be feeling pretty cheap shawty tweakin
The gas that we blowin cost 3 quarters for a 3.5th
Neva stopped the hustle and that really made them wonder
Tried to stop us you can never stop me and my brother
Hes like lightening and I'm like the thunder BOOM
On some big business shit most can't claim numbers
Really from the blocks from the Y we some hunters
Two big shits somebody call the plumber
Never looking down and we never going under

I guess Imma keep striving can't do no complaining
And y'all been first in line, we was the one waiting
I guess we gone keep on writing I heard they be shading
And our circle stay solid tell me why y'all trading?
This our vibe that we bonded everybody breaking
It's all we ever wanted yeah how could you take it
I felt under now I'm high like spaceship
Off the gunja the ZaZa I faced it
