

Moving On

Ayo & Teo

Huh, yeah, I'm moving on
I'm moving on
I'm moving on
I'm moving on
I'm moving on

Yeah nigga I love so hard, I thought I couldn't move on
And no, don't catch me off guard, it ain't what you want
She see me floating no Chris Angel, just crumbs
Shit, pass me a blunt
I gotta be more high than drunk
They don't believe we from the slums
Got THC all in my lungs
Now my VVS on her tongue
My jacket with the one of one
For so many bitches, I was young
You could get a picture we show love
And I gave her dick, and now she sprung
Told her don't confuse it with love
I'm so high, I told her it's above me
Always make sure I keep me a glove
And I make sure I keep me a shovel
We got niggas and we already dug
And I'm ballin, pass me the ball, [?]
Duck duck goose, what, that bitch choosing
Cause we got blue bucks NFT, I'm cruising

I'm moving on, yeah I'm moving on
I be connecting, you keep on bailing
You blowing my phone
I don't talk crazy, you got me stressing
I'm stopping your flow
I know how this goes
I'm learning so much
And most of the time, I can't let it go
But I'm moving on
Just letting you know, they say love comes and goes
And I got too many hoes
This life of ascending
Strategically sliding to new cities
Like Billie Jean, she wanna have my kiddies
I'm grabbing the rubber, like anyway
She thought a young nigga was kidding
I'm really not trying to have no kiddies

I already had a bit tatted with me
And that took a lot of my energy
Huh
And that took a lot of my energy
I already had a bit tatted with me
And that took a lot of my energy, yeah
(Yeah, huh, yeah, yeah)
And that took a lot of my energy
(Yeah, huh, yeah, huh)
I already had a bit tatted with me
And that took a lot of my energy

Yeah, I'm moving on
I'm moving on
Yeah nigga I love so hard, I thought I couldn't move on
And no, don't catch me off guard
