

Forever and Beyond

Ayo

I will love you until the world stops to turn
I will love you until fire stops to burn
I will love you until the heavens break our bond
I will love you forever and beyond

My house ain't got no balcony, I don't live in Verona
But I have followed my one true love, my favorite persona
You are my Romeo, I am your Juliet
You are by far one of the few things I will never regret

I will love you until the world stops to turn
I will love you until fire stops to burn
I will love you until the heavens break our bond
I will love you forever and beyond

Through you I feel closer to God than I've ever felt before
I see from different point of views, from ocean and from shore
You give me love, so much love, trust, all damn respect
And even if you'd walk away I'd always have your back

Come with, let's escape the city, we can move to the countryside
Woodstock, Catskills, any place you'd like
With you I'd live anywhere 'cause everywhere is nice
If it is by your side then it's perfectly right
You can [?], have some rose or red wine
Listen to Stevie Ray Vaughan's "The Sky Is Crying"
We could just watch the best of Jamie Foxx
Dave Chappelle, Kevin Hart, Martin Lawrence, Chris Rock
No matter what we do everything is cool
'Cause you got me and I got you
No matter what we do everything is smooth
Like "Smooth Operator" Sade Adu

I will love you until the world stops to turn
I will love you until fire stops to burn
I will love you until the heavens break our bond
I will love you forever and beyond

I didn't write you no letter but I wrote you this song
So when you're feeling down you can sing along
I didn't write you no letter but I wrote you this song
So when you're feeling down you can sing along
I didn't write you no letter but I wrote you this song
So when you're feeling down you can sing along
I didn't write you no letter but I wrote you this song
So when you're feeling down you can sing along

Sing along with me
I will love you until fire stops to burn
I will love you (I will love you) until the heavens break our bond
I will love you (I will love you) forever and beyond

I will love you (I will love you) until the world stops to turn
I will love you (Love you) until fire stops to burn
I will love you (Love, love, love) until the heavens break our bond
I will love you (Oh yeah) forever and beyond

I will love you until the world stops to turn
I will love you until fire stops to burn
I will love you until the heavens break our bond
I will love you forever and beyond
