

# Amnesia

ayokay

Take me back to the start  
Violet skies and your skin sinking in the dark  
Every glance was a spark  
Please tell me where we fell apart

Fell apart  
Fell apart  
Fell apart  
Fell apart

I wish I could crash my car  
When I'm driving to see ya  
And wake up with an unstained heart  
And forget that I need ya

Erase all the parts of my brain  
Till I can't remember your name  
Baby, we should crash my car  
Get a little amnesia

A little amnesia

Summer sun's getting cold  
Always thought that the plans we made would turn gold  
Now I'm stuck all alone  
I can't believe that we let it go

Let it go  
Let it go  
Let it go  
Let it go

(That we) Let it go  
Let it go  
(That we) Let it go  
(That we) Let it go

I wish I could crash my car  
When I'm driving to see ya  
And wake up with an unstained heart  
And forget that I need ya

Erase all the parts of my brain  
Till I can't remember your name  
Baby, we should crash my car  
Get a little amnesia

A little amnesia  
Till I forget that I need ya

A little amnesia  
Till I forget that I need ya

A little amnesia  
Till I forget that I need ya

A little amnesia

Till I forget that I need ya
