

## Cassette

ayokay

Float around you like a satellite  
This big divide but you always got a pull on me  
Sink or swim yeah you're my ocean tide  
The more I fight it, the more you've got a hold on me

Out with other guys  
While I'm stuck here chasing lonely nights  
Every now and then I give you up  
And that's when you act so into us

Call it what it is  
Pretend it's the apocalypse  
If I was the last man here on Earth  
Then do you think we could make it work?  
Treat me like I'm your cassette  
Wind me up after you're done with it  
If I was the last man here on Earth  
What's it gonna take to make this work?

Drove to LA tryin' to find myself  
Be someone else, said I wouldn't so I called your bluff  
Now I'm living back in NYC and now I can see  
All the years that got away from us

Out with other guys  
While I'm stuck here chasing lonely nights  
Every now and then I give you up  
And that's when you act so into us

Call it what it is  
Pretend it's the apocalypse  
If I was the last man here on Earth  
Then do you think we could make it work?  
Treat me like I'm your cassette  
Wind me up after you're done with it  
If I was the last man here on Earth  
What's it gonna take to make this work?

Don't think I don't think about you  
Every night I drink without you  
Oh yeah, oh yeah  
Don't think I don't think about you  
Every night I drink without you  
Oh yeah, oh yeah

Call it what it is  
Pretend it's the apocalypse  
If I was the last man here on Earth  
Then do you think we could make it work?  
Treat me like I'm your cassette  
Wind me up after you're done with it  
If I was the last man here on Earth  
What's it gonna take to make this work?

Call it what it is (call it what it is)  
Pretend it's the apocalypse (the apocalypse)  
If I was the last man here on Earth

Then do you think we could make it work?  
Treat me like I'm your cassette (like I'm your cassette)  
Wind me up after you're done with it (done with it)  
If I was the last man here on Earth  
What's it gonna take to make this work?
