

## Here, Forever (3AM Edit)

ayokay

I hate when you're so far away from me  
These nights, alone, don't feel you next to me  
I'm sending you warnings, hoping you see  
It's 3 in the morning, when I can't sleep  
Make me a promise, that you won't leave  
That you won't leave  
So

Let's stay here, oh  
Let's stay here, forever  
Let's stay here, oh  
Let's stay here, forever  
Forever

Let's stay here, oh  
Let's stay here, forever

Ooh  
Let's stay here, don't move  
I want you near, so  
Let's stay here, oh  
Let's stay here, forever  
Forever

(Let's stay here, oh  
Let's stay here, forever)

I swear, the whole world stops when you're around  
Darling, my, my words, they fall on you, without a sound  
There's something about you that stays on my mind  
There's something about that look in your eyes  
You make it so easy, to waste all my time  
So waste all my time  
So

Let's stay here, oh  
Let's stay here, forever  
Let's stay here, oh  
Let's stay here, forever  
Forever

Forever

Let's stay here, oh  
Let's stay here, forever

Ooh  
Let's stay here, don't move  
I want you near, so  
Let's stay here, oh  
Let's stay here, forever  
Forever
