

Here, Forever

ayokay

I hate when you're so faraway from me
These nights, alone, don't feel you next to me
I'm sending you warnings, hoping you see
It's 3 in the morning, when I can't sleep
Make me a promise, that you won't leave
That you won't leave
So

Let's stay here, oh
Let's stay here, forever
Let's stay here, oh
Let's stay here, forever
Ooh
Let's stay here, don't move
I want you near, so
Let's stay here, oh
Let's stay here, forever
(Let's stay here, oh
Let's stay here, forever)

I swear, the hole, it stops, when you're around
Darling my, my words, they fall on you, without a sound
There's something about you, that stays on my mind
There's something about that look in your eyes
Make it so easy, waste all my time
So waste all my time
So

Let's stay here, oh
Let's stay here, forever
Let's stay here, oh
Let's stay here, forever
Ooh
Let's stay here, don't move
I want you near, so
Let's stay here, oh
Let's stay here, forever
