Move On

ayokay

Tell me what you want if you won't take an I'm sorry
You're falling below
Tell me what you want to or I know it will haunt you, love

So if I don't fall apart
That'll hit you in the heart
Now baby come on
(Now baby come on)
Would it take the pain away
If I told you that I'd stay?
Now baby come on
(Now baby come on)

If we don't try (try try) till it hurts
We may not lose (yes lose) what it's worth
It takes some time (time time) to let go
But we'll be better off on our own
So baby move on
So baby move on

You treat me like a monster and that's the part I wonder
If you'll ever let go
I never meant to cause you all the pain you're going through
Can't we let it go?
All the words I told you come to sound like lies I sold
Ain't that the way shit goes?
You'll do anything to fight being alone

So if I don't fall apart
That'll hit you in the heart
Now baby come on
(Now baby come on)
Would it take the pain away
If I told you that I'd stay?
Now baby come on
(Now baby come on)

If we don't try (try try) till it hurts
We may not lose (yes lose) what it's worth
It takes some time (time time) to let go
But we'll be better off on our own
So baby move on
So baby move on

So baby move on
So baby move on
So baby move on
So baby move on

So baby move on

If we don't try, try, try till it hurts
We may not lose, yes, lose what it's worth
It takes some time, time, time to let go
But we'll be better off on our own
So baby move on
