

## Over & Out

ayokay

My beautiful mistake  
How did this get so far?  
Every single word brings me closer to harm

Approach like the wave  
That had no pace to gain  
Then tear the place down like your nature's to blame

You live in my mind  
With all the scary little monsters inside  
I'm pressing rewind  
Wish I could go before the forces collide

So now I'll drown  
Inside and out  
I should've shut it down  
Over & out

We'll move through the dark  
Like a flame from a spark  
Oh every single flash looking like an alarm

So do what you came for  
Numb me up like champagne  
Then return me to ash like I was before you came

You live in my mind  
With all the scary little monsters inside  
I'm pressing rewind  
Wish I could go before the forces collide

So now I'll drown  
Inside and out  
I should've shut it down  
Over & out

So now I'll drown  
Inside and out  
I should've shut it down  
Over & out

My beautiful mistake  
How did this get so far?  
Every single word brings me closer to harm
