

Waiting For

ayokay

I can't let it go no
Cause you're something that I can't ignore
And if you can, let me know
And if you want it, what you waiting for?
You said
Truth is, I got something better for you
Won't you stay with me one night?
Got that dumb smile
I've been hanging onto
Cause I never wanted nothing more

These days
We've been making mistakes
Cause there's nothing that we're waiting for
Dream-state
Getting lost in the waves
Like there's nothing that we're waiting for (yeah)
Dadadadam
Dadadadam
Dadadadam
Nothing that we're waiting for

I cannot let it slow
If you're just holding back let it go
If you want something more yea
It's an option for you don't you know that?

Cause truth is
I've got something better for you
Won't you stay more than one night?
Got that dumb smile
You've been hanging onto
Like you never wanted nothing more
Oh

These days
We've been making mistakes
Cause there's nothing that we're waiting for
Dream-state
Getting lost in the waves
Like there's nothing that we're waiting for (yeah)
Dadadadam
Dadadadam
Dadadadam
Nothing that we're waiting for

I feel something
I've been smitten by the way
That we've fallen
I guess I owe it to the way that you're calling
Now everything else is irrelevant
I feel something
I've been smitten by the way
That we've fallen
I guess I owe it to the way that you're calling
Now everything else is irrelevant

These days
We've been making mistakes
Cause there's nothing that we're waiting for
Dream-state
Getting lost in the waves
Like there's nothing that we're waiting for (yeah)
Dadadadam
Dadadadam
Dadadadam
Nothing that we're waiting for
