

## You're Not Here

ayokay

Moments move like the ocean waves  
Take turns around me, before you know I'd say  
I'm so unsure, was it me or her?  
We're washed out now  
All the colors blur

Now you're not here  
Was I anything that you needed  
Oh, my dear  
And you're not here  
If I had try to change  
Would it end the same way?
