

The Breakthrough

Ayreon

"Together with his Father, the Prodigy works feverishly all through the night. He takes a far greater dose of the drug than usual, thinking it will help him see the solution."

Isolate the graviton

Verify the Higgs-Boson

Photons, hadrons

Gluons, fermions

Demonstrate the tachyon

Find the missing baryons

Neutrons, protons

Nucleons, electrons

Ride a wave of gravity

Unravel super symmetry

Position x , sparticles

Momentum p , dark energy

Einstein's relativity

Meets Heisenberg's uncertainty

Causality, eternity

Singularity, infinity!

Eureka! We found it, we broke it

Eureka! We solved it, we did it!

Eureka! We made it, we cracked it

Eureka! We nailed it, we got it!
