

Feed Her to the Wolves

Ayria

Another day, another crime
It's blasphemous so I'll crucify her
We'll sit upon a throne of judgment
It's alright, it's alright, it's alright

She could have ruled the world
But we fed her to the wolves
Because we all abhor it
Our vanity, it kills
We left her there as a warning in case it wasn't clear
Don't misunderstand, we rule by fear

A beautiful mind could have been great
But physical strength will always dominate her
She had the makings of a great tragedy
It's not alright, it's not alright, it's not alright

She could have ruled the world
But we fed her to the wolves
Because we all abhor it
Our vanity, it kills
We left her there as a warning in case it wasn't clear
Don't misunderstand, we rule by fear

You've broken her
Crushed her will
Maybe for all future generations
It's too late to say that you're sorry
For taking her down with mob mentality

She could have ruled the world
But we fed her to the wolves
Because we all abhor it
Our vanity, it kills
We left her there as a warning in case it wasn't clear
Don't misunderstand, we rule by fear
We rule by fear
We rule by fear
