

# Let's Go Trap

Aystar

Left no tracks  
Legged it there one time with the spinner, had to head right back  
You was talking all that smoke 'til you got your bestfriend whacked  
When the slug just ripped through your joints, fam you don't get them back  
Sometimes it get like that  
Let's go trap  
36 ones just came right there in the Tesco bags  
[?], same type Esco had  
Don't try come with the fire I can't even get no fags  
Look, my price just went up  
I'm a classic man I don't chill on the block with the dusty dogs  
Them broke boys have been chilling for time  
When I swing around they're like "yo G you gonna live a long time"  
Some joke men  
Be out here and they're hoping  
Got a bruck back with duct tape  
Take care with it cause it's broken  
Unruly  
I don't do a Tom Foolery  
My niggas came here shining  
And they're still taking your jewelry

Left no trace  
Went there quick with the wap one time, never left no case  
Filled that ting to the top, no I never left no space  
I don't think you're listening rude boy when you step, roll safe  
Didn't want me to start jumping on these trap beats  
Run up on that nigga with the MAC piece  
Start dispersing those MAC sweets  
Broad day  
Like man's not hot, no Big Shaq and no Asnee  
One shot, I'll turn his whole head into a pasty, bang  
Joke men, just walked out of a grow ken  
That's a grow yard, I got with ya bitch  
I just walked in like bitch grow them  
That's forty plants  
Nigga that's forty bands  
Manna make the forty dance  
Bitch they're naughty pants  
The price just went down  
I said 2-10 for the Oz  
But we landed 6 box  
So for the Oz I only want 1-9s  
Get food consigned  
Do moves and shine  
You got snitch niggas on your team  
Rat niggas, only real yutes in mine  
I'm in the booth with with a spliff  
Or in a coupe with your bitch  
You niggas ain''t on shit  
And what nigga? You niggas ain''t on piss  
Big.44, you niggas ain't on this  
I'mma slide through and then cock that  
And then aim that and then bang that stick  
Nigga it's curtains
