Niggas wanna talk about opps to their friends in the box
Talking about crops
That they ain't even got
Face is too clean you ain't got no spots
So I don't wanna hear that you're going OT
In your bars no more cause you're not

Niggas wanna talk about opps to their friends in the box
Talking about crops
That they ain't even got
Face is too clean you ain't got no spots
So I don't wanna hear that you're going OT
In your bars no more cause you're not

You've never stepped on a train
Used to do that on tod
Kinder egg full of white
Another kinder egg full of bob
Big hand ting emptying clips
I used to do that on COD
Then I hit the strip with the wap first time
Inch away from his fod
Bro took chase
Had police like an inch away from his quad
You ain't never took chase
Nigga you'd stop
Talks a good game but he's got no guap
So I don't wanna hear that he's doing pure bits
In the whip no more cause he's not
You've never stepped on the pedal
And watched the car just spin off
You've never revved on a bike
And heard the engine go pop
You've never whipped on the white
And watch the flake just straight lock
All you do is talk shite
Keep talking you might just catch a face shot
It's just me and one man and we're floating the block
If I catch wind that you pulled down a crop
Then I'm coming outside with the mop
Like what
Like I swear my man owes us nuff guap
So I don't want him thinking we're coming for the oz
Cause we're not bro we're taking the lot
Dough, we're making a lot
No witnesses man's taking the shot
Blatantly hot
Done it broad day by the shop
Man's from the mud
Pyrex scraping the pot
Niggas be hating a lot
But its all good
Because them niggas all broke
And they never move out the hood
Nigga they can get popped
Quick

Niggas wanna talk about opps to their friends in the box
Talking about crops
That they ain't even got
Face is too clean you ain't got no spots
So I don't wanna hear that you're going OT
In your bars no more because you're not

You've never stepped on a train
Used to do that on tod

Another kinder egg full of bob
Big hand ting emptying clips
I used to do that on COD
