Trap Mode

These little niggas don't know about trap mode
Never had to take a hot chase down the back road
Never had to slap off a strap and get the strap sold

Trap mode

Trap mode

These little niggas don't know about the trap
These little niggas don't know about double tap
This nine's a little slag she'll give a man the clap

She gets all domestic likes to give man a slap
Spits on some next shit you know, nasty like that
When I start pressin' on this little weapon
Smoke you and your bredrin you'll be screamin' for your Dad so just settle
You see the diamonds on the kettle? Encrusted round the presidential strap a
nd the bezel
I'll come by your residential gaff with the metal

So just settle

I'll come by your residential gaff with the metal

So just settle

I'll come by your residential gaff with the metal

You see the diamonds on the kettle? Encrusted round the presidential strap a
nd the bezel

I'll come by your residential gaff with the metal

I'll come by your residential, in a rental
Start goin' mental movin' differential
Dishin' led out like pencil leave you outlined like stencil
Probly still see the bullets in the fence still
From where man tried to get me
Man tried to wet me, tried to leave me all torrential
But it didn't go to plan I ended up leavin' him torrential
Leakin' all blood needin' surgery for dental
Practice, I'm deceiving like a catfish
Run up on em' spin and backfist
He didn't know, I've been on me Mystic Mac shit
So don't slip, end up in a choke get tapped quick
Spinnin' back kick leave him on his back quick
Shoot him 3 times now he's on a mattress
In the hospital tryna' fuckin' get his back fixed
Sittin' there like he should've fuckin' clapped 6
But that's alright, cause the boy's are gonna double back quick
Soon as he comes out, he'll be goin back in
Me boy just come out, now he's goin back in
Me other boy just come out said he ain't goin back in
He's clappin' at the feds before he goes back in
That's his 3rd time strike he won't be gettin' out the bin
Just a visit and a postal order from his next of kin
And if he does come home he'll be back on that trap mode
