If you pretend to be nice
Please do so in some other places
What would you know
About that?

Your knowing talk
Gives me a headache
Until when are you going to
Continue acting?

You can't tell a lie
Behind your eyes

Your pitying glance
Makes me nauseous

Swear at me, instead
So that I can't even cry
Don't accept me
Your hands are cold

Enough time
Has passed

It's time you understand
Isn't it?

Your fake smile
Is the hardest to me

Be cold to me, instead
So that I can't even stand up

Don't be tender to me
Please leave me alone

Swear at me, instead
So that I can't even cry
Don't accept me
Your hands are cold

Be cold to me, instead
So that I can't even stand up
Don't be tender to me
Please leave me alone

Leave me alone now

But don't leave me alone
