

# Everybody Knows

Ayyan

Saw you rolling my way  
Something came over, got me feeling some way  
Something came up, never felt this way  
Now your right here, don't wanna behave

Touch me right here, wait behave  
Now your right here, don't wanna behave  
I can't believe how it's all in my head  
I'm feeling you now, you're all in my head, oh

Everybody knows, everybody knows  
Baby it, baby it, baby it shows  
Everybody knows, everybody knows  
Baby it, baby it, baby it shows  
Everybody knows, everybody knows  
Baby it, baby it, baby it shows  
Everybody knows, everybody knows  
Baby it, baby it, baby it shows

Saw you fighting my way  
Through the crowd trying to get in my face  
Wind around, showing out  
Got you right here, don't behave  
When you touch me it's ecstasy

Touch me right here, wait behave  
Now you're right here, don't wanna behave  
I can't believe how it's all in my head  
I'm feeling you now, you're all in my head, oh

Everybody knows, everybody knows  
Baby it, baby it, baby it shows  
Everybody knows, everybody knows  
Everybody knows, everybody knows  
Baby it, baby it, baby it shows  
Everybody knows, everybody knows  
Baby it, baby it, baby it shows

Everybody knows, everybody knows  
Baby it, baby it, baby it shows  
Everybody knows, everybody knows  
Everybody knows, everybody knows  
Baby it, baby it, baby it shows  
Everybody knows, everybody knows  
Baby it, baby it, baby it shows
