

Hush

Ayyan

Don't say another word, baby just hush, hush
Ain't trying to hear no more, you're talking too much, much
Don't mean to cut you off but don't you feel the rush, rush?
I know you're feeling me, so hush, hush, hush

Don't say another word, baby just hush, hush
Can't wait to be with you, I want you so much, much
Anticipating baby every single touch, touch
You know you feel it too so hush, hush, hush

Boy you been talking since you walked into the door
Bragging on your cars and cribs, boy who you fronting for?
Been down with you now for a month or little more
Still nothing's going on, tell me what I'm doing wrong
Know you're the kind of boy that likes to take it slow
And I ain't the type of girl you can hit and roll
Still taking way too long, I really want to know
Are you worth waiting on, this scene is getting old

Don't say another word, baby just hush, hush
Can't wait to be with you, I want you so much, much
Anticipating baby every single touch, touch
You know you feel it too so hush, hush, hush
Don't say another word, baby just hush, hush
Can't wait to be with you, I want you so much, much
Anticipating baby every single touch, touch
You know you feel it too so hush, hush, hush

Looking in your eyes, I tell ya waiting is so hard
If I had my way, I would have kissed you from the start
Ain't like them other girls, the ones that break your heart
Can't tell me you ain't ready, boy I hear you breathing heavy
I keep on trying to tell you what is on my mind
You change the conversation every single time
All I want to see boy is your lips touching mine
Wanna be up in your arms, don't know what you waiting on?

Don't say another word, baby just hush, hush
Can't wait to be with you, I want you so much, much
Anticipating baby every single touch, touch
You know you feel it too so hush, hush, hush
Don't say another word, baby just hush, hush
Can't wait to be with you, I want you so much, much
Anticipating baby every single touch, touch
You know you feel it too so hush, hush, hush
