

## It's Time

AZ

Yeah, this my only medicine right here  
Huh, too real  
This my lean, ya heard

Spit like this 'cause I scribe my own script  
Rich on some project shit, I don't switch  
Legit, though I dialogue slick, the God slick  
Grown man shit, I'm on my own dick  
Adored by the prettiest broads, I'm no fraud  
The overlord, go overboard when I record  
Shit facts, a billion stack, this is get back  
Wrist wrap, suited up, no mismatch  
Did me in B-more with Big B  
In '03, he got snatched in NC  
Case closed, on a chase for pesos  
My fate, choose, move as smooth as a Wraith roll  
Play slow, but about it, others doubt it  
The hate, allowed it, off break was straight without it  
Grind mode, I snatch a bag blindfold  
It's time though, this that fine wine flow

My first debut came through like Jeru  
Play who? Niggas smokin' that cake too  
Passed out, got clout they rap 'bout from the trap route  
Tryin' to close on Shaq house  
Still buzzin', was the king of the kitchen oven  
In the spot with two coke pots like kissin' cousins  
Scratch that, too fly for flashbacks  
Got my eyes on a G5 'craft, all matte black  
More moola, dirt-bikes out in Dubai  
And fuck 50 feet in the sky, I need a new high  
Prince did a thirty he [?] soon  
My nigga [?] caught a case in the courtroom  
I'm tryin' to [?] like, he a straight up North goon  
Niggas sendin' kites tryin' to tell me to talk to 'em  
Fuck that, we from the bottom we bust back  
Shit I been [?], but I rose above that  
The true and livin', just one listen it's a new religion  
Old school condition, for every jewel it's a fool forgiven  
I forgive y'all

It's a demo, it's a demo  
It's a demo, it's a demo, it's a demo, it's...
