

## What's Good

AZ

All we talked about was tryin' to make it out the hood (Get out the hood)  
Then we made it out the hood  
Now, all we talk about is how we still in the hood (Still in the hood)  
My nigga, what's good?  
I know you tryin' (Keep it real with me)  
Somebody lyin' (Tryin' to deal with me)  
Are you really livin' or you're just busy dyin'?

Bein too real will throw a nigga off his din  
A fiend can't understand the importance of a king  
Sleep in peace, preyin', extortin' was his thing  
Since bein' able to sling, lost a portion of the team  
No regime, low esteem  
Nothin' stable supportin' a nigga dream  
The streets preach it, but they don't teach it  
It's no secret, fuck how real you keep it  
Lead by example, you slip and they gon' stamp you  
Every game's a gamble, fame's hard to handle  
On all levels, hustle, we all rebels  
It's only wack when you slack and back peddle  
Rap thorough, but we act ghetto  
Stack, stack, stack, then it's right back to the borough  
Front for who though, these the niggas that you know  
From the ground been down since day uno

All we talked about was tryin' to make it out the hood (Get out the hood)  
Then we made it out the hood  
Now, all we talk about is how we still in the hood (Still in the hood)  
My nigga, what's good?  
I know you tryin' (Keep it real with me)  
Somebody lyin' (Tryin' to deal with me)  
Are you really livin' or you're just busy dyin'?

Or you're just busy dyin'?  
Or you're just busy dyin'?  
Or you're just busy dyin'?  
Are you really livin'?

Taught if you knew better with cheddar you do better  
Try buyin' stocks instead of a new sweater  
Abandoned lots, build shops, that's true treasure  
Opposed to the block, gettin' shot by whoever  
Lost so many, that pain is still in me  
Puffin' with that Henny, had me feelin' like a chimney  
So I quit that, hopped and got my shit back  
I give it gift wrapped when I stop to chit chat  
A man on a mission, you have to have vision  
Be the voice of reason and revamp ya livin'  
Duck death, side step prison  
Love ya set, but always rep ya siblings  
I hate to see it for some, they can't leave it  
I guess they breathe it, who am I to plea with?  
Bless to those that understand the goal  
Get it while it's hot before ya hand go cold

All we talked about was tryin' to make it out the hood (Get out the hood)
