

## Hail the Whore

Azaghal

Fields of serpents, rivers of venom  
Screams of dying celestial flesh  
Hail the whore, embodiment of falsehood  
Behind your icons, only emptiness  
Behind your masks, only hypocrisy  
Hail the whore, Hail the desolation of god

Spreading the black art of blasphemy  
In it's purest and filthiest form  
The wolves have returned  
To slaughter the shepherd and his herd

To drive angels to madness  
By the shadows in their souls  
Sending them to eternal sleep of oblivion

From spirit to flesh  
From flesh to ash  
From ash to oblivion  
Spreading the Satanic plague

Fuck the virgin on the desecrated altar of god  
Proceeding to ultimate sin  
I hail only death  
Satan! Live through me!
