

4k love

Azahriah

Mondogatják például azt is, hogy a szerelem az egy nagyon szép dolog, egy...
Tényleg a legszebb dolog a világon, meg ilyenek...
Oké, lehet, hogy így van, de szerintem nekem az...
Egyre jobban kívánom azt, hogy legyen normális életem, legyen átlagos életem
És ne olyan, amiben most élek
És így szinte napról napra érzem azt, hogy távolodok önmagamtól
És hogyha boldog ember lennék
Nagyrészt elveszteném azt, amit most szeretek magamban

Eh, I said you lied to me, you really lied to me
Even if you don't know me, you should know you did a lot to me
You won't get out of me, I feel them side effects
When I'm with you, you bringin' out a different side of me

Mm, ooh-ooh-ooh, I'm a lonely stoner-er-er
I'm a lonely stoner

Look, you know you're not allowed to do that, right?
Messin' with my pride, yuh, battle in my mind, yuh
Pour me up a cup, yuh, put that to the side
And if I'm honest, I just kinda like, how we slide
Sometimes it's better to stay quiet than talk about it
But I need you, so I hope you enjoy the silence
My soul is screamin', and my body is lifeless
So, tell me what you gon' do when it all ends

Legends dyin' too young
So why should I believe in you?
Legends dyin' too young
So why should I believe in you?

You really lied to me, I said you lied to me
Even if you don't know me, you should know you did a lot to me
You won't get out of me, I feel them side effects
When I'm with you, you bringin' out a different side of me

Ooh-ooh-ooh, I'm a lonely stoner-er-er
I'm a lonely stoner

Leave me alone, yuh, leave me alone, yuh
Just leave me alone, yuh, leave me alone, yuh
But don't you ever leave, but don't you ever leave
But don't you ever leave, no, no, no, never leave
I thought I was nothing but dust, girl, you showed me how to love
Too many bitches around me tryna make me fall, I hate 'em all
You're the hole inside my heart, you're the only thing I want
Final season, final part, misery inside my heart

Legends dyin' too young
So why should I believe in you?
Legends dyin' too young
Why should I believe in you?

You really lied to me, I said you lied to me
Even if you don't know me, you should know you did a lot to me
You won't get out of me, I feel them side effects
When I'm with you, you bringin' out a different side of me

Ooh-ooh-ooh, I'm a lonely stoner-er-er
I'm a lonely stoner

Ooh-ooh-ooh-ooh
Ooh-ooh-ooh-ooh
