

Anything

Azizi Gibson

Sometimes I sleep upside down
So I can wake up right
Because the world is so uptight
Got me feeling like "fuck life"
G's up, hoes down till we up high

Nah, I can't fuck with you
Can't see me and no bleezy getting stuck with you
Hitting lick I wouldn't fuck a few hoes with you
Don't care about the money or the zone, nigga
No, I don't want to chill and get stoned with you
When you cry I ain't handing you no tissue
Want to die, I ain't handing you no pistol
Look me in my eyes, I will not bullshit you

Sometimes I sleep upside down
With a motherfucking burner on me
In case you fuck niggas think of turning on me
In case you want to test a guy and get a shirt, whoodie
I bet you won't see that money on the first, homie

I was just a motherfucking tike
Titties only thing that youngin like
Game the only thing that's on my mind
Never gave a shit about time
I ain't even noticed no signs
I just kept my head up, kept trying
Niggas get fed up, start dying
Cops come through and start prying
Young niggas right up off the ground
Here they come, don't make a sound

I been fucked all my life, now it's my time
Yeah, I see you hating, pussy niggas, on the side line
Mad I got your baby mama tryna ring my hot line
I would never stop the grind, nigga, I am not shy
Fuck you and your sauce, I'm the boss, I am not kind
Prehistoric to the morgue, y'all niggas, are impostors
It's just me and my reaper apostles
Yeah, we in the Bible, don't you let it shock you
Going too fast in the game on one page
Want a fat steak with a side of Tinashe
Need a main course, I won't settle for an entree
Tryna buy an island, commas for a getaway
So everytime the game gets lame Imma get away
It's driving me insane, I need some better days
Prehistoric shit, let's head to the cave
Prehistoric, bitch, yeah, we getting paid

Yeah, yeah
I love my life
I love my life
Don't matter how shitty it gets
Fuck it, I love my little life
