

Black Rose

Azizi Gibson

Black black roses in my garden
Black black roses in my garden
Black black roses in my garden
Black black ro- oh
Black black ro- oh

Tell me what's a man to do
When he faces you one time
Should I put all my trust in you?
When we only fuck one time
You told me that you'd be my little girl for the meantime
When you get close I just know you my baby because you give me good vibes

Black black roses in my garden
Black black roses in my garden
Black black roses in my garden
Black black roses - in my garden
Black black ro- oh
Black black ro- oh

I like a black black rose
I like a red red rose
I tell her keep her eyes closed
Now only God knows (I been waitin' on it)

Now one for the drop
Take it down bring it back to the top
Move it slow and then speed it up
Drop it low and then pick it up
In the Germany, the gun for your run
A gun for your run
With that body, a gun for your run
A gun for your run
What you want girl? a gun for your run
A gun for your run
Take control girl, a gun for your run
A gun for your run

Black black roses in my garden (a gun for your run)
Black black roses in my garden (a gun for your run) (with that body a gun for your run)
Black black roses in my garden
Black black ro- oh
Black black ro- oh
Black black ro- oh
(A gun for your run)

I see you looking' for you next man
Future exes, send a message
We impressed when everyone be askin' questions
Like who Vanessa, who been ridin' in your [?]
Uncle Fester, you don't care because your weird
And I take a picture, roll one out to a nigga
Cause all this liquor has got me trippin' off the quickness
Now come and fix this imma show you my legit-ness
I'm your witness, now its time to save a princess
