

Off My Mind

Azizi Gibson

(Don't want to feel you, don't want you on my mind)
I'm not gonna lie
We probably live in the most toxic era that this world has ever
seen

Man you niggas, smack
f*ck, is y'all niggas on crack
I mean, do you, but this how you really won't act
Had to be the nigga that's (???) but i miss the president being
black
Niggas in the back like facts
Weaving tracks in the back like fax
The inner city's going through a test, I'm just trying to let y
ou know
And I really want to make your mind grow

Not point in dying, I never loose hope
I know this shit hurts, i know
But i promise that the answer ain't dope
Listen up, please look close
We got all the tools we need, now it's time to let these f*ck n
iggas know

Distractions on the TV they might kill you (See they gon' kill
me)
My watch is telling me (???) the world is tilting (The world is
tilting)
They even got the nerve to say we guilty (to say we guilty)
I see why you must break and hit the kill switch
