

Fever

Azure Ray

Fever I know you've come to take my love
Go away
Fever I know your face just like a dove
Fly away
Fever turn the lights out
Take a different road
Let us be
Fever I know you've come to take my love
Go away
Fever I know in god I shouldn't trust
He's so far away
Fever turn the lights out
Take a different road
Let us be
Fever take a different route
Travel a different road
Let us be
Fever I know you've come to take my love
Go away fly away go away
