

Reaching for the one  
Hold onto what you love  
Like we used to  
Like we used to

Laughing all night long  
For the sake of the song  
Like we used to  
Like we used to

Just when we thought we had seen it all  
Ganges lights and frozen waterfall  
And every day we wanted more and more

Don't let life bring you down  
Find you safe and sound  
Like we used to  
Like we used to

Do do do do  
Do do do do  
Like we used to  
Like we used to

Just when we thought we had seen it all  
Ganges lights and frozen waterfall  
And every day we wanted more and more

Just when we thought we had seen it all  
Ganges lights and frozen waterfall  
And every day we wanted more and more

Like we used to  
Like we used to  
Like we used to
