

# Sleep

Azure Ray

Fill these spaces up with days  
In my room  
You can go, you can stay

But I can't sleep  
I can't speak to you  
I can't sleep

Now these years locked in my drawer  
I'll open to see  
just to be sure

But I can't sleep  
I can't speak to you  
I can't sleep

And so I'm reaching out for the one  
And so I've learned the meaning of the sun  
And all this like a message comes  
to shift my point of view  
I'm watching through my own light  
as it tints the shade of you

Hold my wine, hold it in  
Nobody's lost  
but nobody wins

And I can't sleep  
I can't speak to you  
I can't sleep

And so I'm reaching out for the one  
And so I've learned the meaning of the sun  
And all this like a message comes  
to shift my point of view  
I'm watching through my own light  
as it tints the shade of you

I can't sleep  
I can't speak to you...
