

Dizzy

Azure Ryder

Am I always nearly there?
A million miles to nowhere
'Cause no one had ever stayed
Just say, "I love you by the way"

Now I feel so high
And I feel okay
And even though my heart gets dizzy
I know I'm on the way
And I feel so high
And I feel okay
And even though my heart gets dizzy
I know I'm on the way

I'm never gonna get anywhere if I don't pull
Never gonna find love if I don't show up
I'm never gonna get anywhere if I don't pull
Never gonna find love if I don't show up

I could paint you in a breath
But with nothing to compare
So I'll be fine until someday
A stranger's turning into faith

Now I feel so high
And I feel okay
And even though my heart gets dizzy
I know I'm on the way
And I feel so high
And I feel okay
And even though my heart gets dizzy
I know I'm on the way

I'm never gonna get anywhere if I don't pull
Never gonna find love if I don't show up
I'm never gonna get anywhere if I don't pull
Never gonna find love if I don't show up

Half the time, I'm wading water
And the other half, I'm in the sky
'Cause it's the rise and the fall
That makes it terrifying
Half the time, I'm wading water
And the other half, I'm in the sky
'Cause it's the rise and the fall
That means that I'm still trying
Half the time, I'm wading water
And the other half, I'm in the sky
'Cause it's the rise and the fall
That keeps us moving

I'm never gonna get anywhere if I don't pull
Never gonna find love if I don't show up
I'm never gonna get anywhere if I don't pull
Never gonna find love if I don't show up
