Darlin' What Happened

Oh darling, what happened to that beautiful smile? The ones you gave me any time we were face to face Oh is it someone else taking my place Oh baby, what happened

Oh what happened to those fast heartbeats? The ones that excited me so Oh tell me, don't you love me Oh, baby, don't you care any more? Darling, what happened

Oh it's so sad what a little time can do Oh when you're hanging out with another Losing a love with you All those good times we had Baby, just me and you

Oh darling, before I go There's one thing I'd like to know Don't you love me? Don't you care any more? Darling, what happened
