

You're Going with Me

B.B. King

Don't let me kiss you unless you're going all the way
I need to meet your heart while more than just today
Cause I gotta know if I let myself go
You're going with me
You're going with me

You're feeling fortune
The politeness heart and felt well
I don't wanna burn that place
No matter where out there
And you better know if I'm wanna go
You're going with me
You're going with me

Why can't we get lucky
And hit the numbers when we play
Hit my pocket through my money
And make a line everyday
You're going with me
You're going with me

If you are to leave me
You said your last goodbye
And I don't care and all
About be kind of wine
You better know if I'm broken to go
You're going with me
You're going with me
You're going with me
You're going with me
You're going with me
Baby you're going with me
Come on now
You're going with me
You're going with me
Come on
You're going with me
