

Born to Fly

B.J. Thomas

As a child I watched the sky
And wished that I could fly
Birds on wings passed my by
I wondered why can't I

There's always seemed to be
Something out there calling me
Feeling lost upon the shore
I was born to be something more

I was born to fly

Then I heard there'd come a day
When God's children would be called away
Far above the eagle's flight
Born to fly above the night
Into the glory of His light

Born to fly
Going high
You'll find me
Soaring above on wings of love
That's where I'll be

Up to the sun
For He's the one
That makes me high

He sets me free
I'm free indeed
And born to fly

Now I've learned
It takes no wings
To rise above a lot of things

A baby's smile
A summer rain
And all the things that never change

Peace of mind
A song to sing
And all the things believing brings
If we're loved through His eyes
We'll find this life is open skies

And we're born to fly

Born to fly
Going high
You'll find me
Soaring above on wings of love
That's where I'll be

Up to the sun
For He's the one
That makes me high

He sets me free
I'm free indeed
And born to fly

Born to fly
Going high
You'll find me
Soaring above on wings of love
That's where I'll be

Up to the sun
For He's the one
That makes me high
