

Created For A Man

B.J. Thomas

I was born in this world
To love just one girl
She'll always be a part of me
She makes life worth living
Keeps right on giving
All her precious love to me

She's a woman who loves and understands
She's a woman created for her man
And when I hold her I know why she was born
She's my all and I love her
Without her I can't go on

Everyday she makes my life complete
And when the sun goes down
I know she's there by me
I've got everything I need
She's the one that's made for me

I thank the Lord for giving
Me the life I'm living
Everything she does she does for me
With a touch of her hand
I know who I am
I know that anyone can see

She's the woman who loves and understands
She's the woman created for her man
And when I hold her I know why she was born
She's my all and I love her
Without her I can't go on

She's the woman who loves and understands
She's the woman created for her man
And when I hold her I know why she was born...
