

I Got You

B.J. Thomas

You really started something
The moment you touched my hand
I went ahead and played it hard to get
Was, all a part of my master plan

I drew you in ever closer, closer
Like a moth I'm all flying to the flame
And once again you see the hunter is captured by the game

'Cause baby I got you
Right where I want you
And baby I want you right by my side
You don't have to tell me
Our love will last forever
Just tell me that you love me
And I'm satisfied, wo wo

I made your mind up for you
You never did stand a chance
'Cause all my cold cold calculating
I had to end in a hot romance

Love won't wait, now it's too late
It's out of your loving hands...

Baby I got you
Right where I want you
And baby I want you right by my side, side
You don't have to tell me
You're special kind of lover
And I'm looking for a lover
Oh baby I tried, tried, tried, wo wo

Love won't wait, now it's too late
It's out of your loving hands...Oh

Baby, baby, baby
Baby I got you
Right where I want you
And baby I want you right by my side
You don't have to tell me
Our love will last forever
Just tell me that you love me
Oh baby I tried, tried, tried...

I love you
'Cause you're kind of lover
I'm looking for a lover
Baby I tried, tried, tried...
I got you, oh
Right where I want you
Baby I want you by my side, side
