

# I'm Callin'

B.J. Thomas

You know I'm callin'  
For your thunderstorm  
I'll be hopin'  
That it won't be long  
Say good bye to the top of the world  
Hello good friend I believe your head  
Is about to twirl

Because I'm callin'  
For your tidal wave  
I'll be lookin'  
For your darkest cave  
Say hello to the middle of the night  
It's pitch black dark  
And there ain't nobody else in sight

You know it's a one horse show  
You gotta ride him when he's ready to go  
So fall on out and get yourself a deal

I'll be fixing  
Up the biggest room  
You gonna be waltzin'  
With the west side soon  
Say hello to the middle of the night  
It's pitch black dark  
And there ain't nobody else in sight

You know it's a one horse show  
You gotta ride him when he's ready to go  
So fall on out and get yourself a deal

I'm callin'  
I'm callin'  
I'm gonna be callin' callin'  
Callin', yes  
Gonna be callin' callin' callin'
