

# I Need A Miracle

B.J. Thomas

I've looked into my future  
To what I just can't say  
I've spent up all my life  
To get to where I am today

Too old to start all over  
Too young to call it quits  
This time  
I need a miracle

They say the answer's money  
You know I've made a lot  
It didn't buy me piece of mind  
It just paid for what I got

And all I got was troubles  
And things that pass away  
Oh this time, oh  
I need a miracle, I need a miracle

Oh I've been known to gamble  
And I've been known to win  
And if life was like a game of chance  
I'd play the chips again

But all the things I think to say  
You knew before  
This time, oh  
I need a miracle, I need a miracle

This time
