

# I'M So Glad I'm Standing Here Today

B.J. Thomas

There were times  
I remember  
I had to fight  
Just to hold my head up  
Those times when even my friends  
Tried to make a fool of me  
There were things that my heart looked at  
That they just couldn't see

Some said I was hopeless  
A mind tangled in the night  
But strong hearts just keep goin'  
That is why I'm still standing here today

Come together  
Raise up your voices  
This time my song of love and life won't go away  
I'll sing forever  
Here in the sunshine  
I've lived to see the sun break through the dawn  
And I'm so glad to be standing here today

If you're lost  
In your troubles  
And the world just seems to just forget you  
If you remember sunshine  
Even on your darkest day  
Just follow what your heart says  
And you'll find your way

Some said I was hopeless  
A mind tangled in the night  
Ohh but strong hearts just keep goin'  
That is why I'm still standing here today

Come together  
Raise up your voices  
This time my song of love and life won't go away  
I'll sing forever  
Here in the sunshine  
I've lived to see the sun break through the dawn  
And I'm so glad to be standing here today

Ohhh ohhh  
Come together  
Raise up your voices  
This time my song of love and life won't go away  
I'll sing forever  
Here in the sunshine  
I've lived to see the sun break through the storm  
And I'm so glad to be standing here today

I've lived to see the sun break through the storm  
And I'm so glad to be standing here today
