

Impressions

B.J. Thomas

There are impressions on the bed where we were laying
There are impressions in my mind
While we were lyin' there my heart was sayin'
No better love will I find

Came the dawn and you were gone
Was it just a dream all along
Feed my heart with understanding love
Don't leave me with the impression I'm a fool

There are impressions on my soul where we were sharing
There are impressions in my heart
You gave me the impression you were caring
Why is it now that we're apart

Came the dawn and you were gone
Was it just a dream all along
Feed my heart with understanding love
Don't leave me with the impression I'm a fool

Feed my heart with understanding love
Don't leave me with the impression I'm a fool
