

# Midnight Minute

B.J. Thomas

I felt the heat across the room  
You eyes met mine my heart was doomed  
Caught up in wild desire  
I wanna hold you till the break of day  
I wanna take your every breath away

Give me one chance  
I'm gonna take it  
Give me your heart  
Baby I'll never break it

Something that feels this right  
Just couldn't be wrong  
Hard to hold back the way this body's achin'  
Just thinkin' about all the love we could be makin'

I wanna jump right in it  
In a midnight minute  
Let's take a midnight minute  
And make it all night long

I need to touch you  
More than you could know  
Once I do  
I'll never let you go  
Just let passion take control  
You won't be sorry if you do  
You're gonna make my every wish come true

Give me one chance  
I'm gonna take it  
Give me your heart  
Baby I'll never break it

Something that feels this right  
Just couldn't be wrong  
Hard to hold back the way this body's achin'  
Just thinkin' about all the love we could be makin'

I wanna jump right in it  
In a midnight minute  
Let's take a midnight minute  
And make it all night long

I can almost taste it  
The stars are bright and the moon is young  
Let's not waste it

Give me one chance  
I'm gonna take it  
Give me your heart  
Baby I'll never break it

Something that feels this right  
Just couldn't be wrong  
Hard to hold back the way this body's achin'  
Just thinkin' about all the love we could be makin'

I wanna jump right in it  
In a midnight minute  
Let's take a midnight minute  
And make it all night long

Make it all night long  
I wanna jump right in it  
In a midnight minute  
Oh, oh  
Make it all night long  
In a midnight minute  
Make it all night long  
Oh  
I wanna jump right in it
