

My Love

B.J. Thomas

Living without love
It can't be done
Unless it's your only one
And that is the way I feel most every day
Don't take your love away

Well, you can take the world and throw it all away
My love
Take the moon and melt it in the sun above
But take my heart
It simply can't exist without your love, your love
My love

There was a time I didn't need
Then the good Lord showed you to me
And I'm glad he did
I've been dreaming since I was a kid
Of some just like you

Well, you can take the world and throw it all away
My love
Take the moon and melt it in the sun above
But take my heart
It simply can't exist without your love, your love
Your love
Your love
My love
