

Night Life

B.J. Thomas

When the evenin' sun goes down
You will find me hangin' 'round
The night life ain't no good life
But it's my life

Many people just like me
Dreaming of old used to be
The night life ain't no good life
But it's my life

Listen to the blues they're playing
Oh, listen to what the blues are saying

Oh, mine is just another scene
From the world of broken dreams
You know the nightlife ain't no good life
But it's my life

Oh, when the evenin' sun goes down
You would find me hangin' 'round
Oh the night life
Ain't no good life
But it's my life

Many people just like me
Dreaming of old used to be
You know the nightlife ain't no good life
But it's my life

Oh, the night life
Ain't no good life
But it's my life
