

## No Limit

B.J. Thomas

At times I can't imagine  
The world goin' on  
We're runnin' out of most everything  
That we depend on  
There are so many people in need  
So many hungry mouths to feed  
Is there an end to all the greed  
Or just an end to it all

There's no limit to loneliness  
When there's no love  
And there's no limit to the bottom  
When you cannot see above  
But there's no limit to His love for you  
Askin's all that's left to do  
There's no limit to love  
There's no limit to love

There's only so much to go around  
Before it all runs out  
Seems the whole world is windin' down  
There's little doubt  
But I know one thing that will never be  
Limited in quantity  
And that's His precious love for me  
And for you

There's no limit to loneliness  
When there's no love  
And there's no limit to the bottom  
When you cannot see above  
But there's no limit to His love for you  
Askin's all that's left to do  
There's no limit to love  
There's no limit to love

There's no limit to love  
No limit to His love
