

## Northern Lights

B.J. Thomas

We are only moments of the blinding lights  
If we can hold on to each other, maybe we'll get by  
Doing might make each other stronger  
Did we not decide that we are only moments in time  
And we will be remembered by the love we leave behind

Just as long as the northern lights  
All ocean down from paradise  
And I'll believe in the lights of you and me  
Just as long as you need me there  
I will follow you and we will share  
The destiny of the lights of you and me

So let all of the love and light that surround you  
Flow into your life  
Come with me and nothing can harm us  
Here in paradise  
And let us walk together through the storm

Just as long as the northern lights  
All ocean down from paradise  
And I'll believe in the lights of you and me  
Just as long as you need me there  
I will follow you and we will share  
The destiny of the lights of you and me

I believe in the northern lights  
And that we will look down from dizzying highs  
Paradise is the place that we will be  
It's destiny, full of lights of you and me

Just as long as the northern lights  
All ocean down from paradise  
And I'll believe in the lights of you and me  
Just as long as you need me there  
I will follow you and we will share  
The destiny of the lights of you and me

Just as long as the northern lights  
All ocean down from paradise  
And I'll believe in the lights of you and me...
