

## Second Chances

B.J. Thomas

Maybe some things are just meant to be  
No matter how bad they begin  
There's something about you I can't live without  
Who can say how you got under my skin

Nothing with us comes the easy way  
No matter how hard that we try  
No match made in heaven  
Could be this uneven  
I know, so only heaven knows why

You've got me taking second chances  
Like I swore I'd never do  
Every day goes by  
I find a reason why

I should believe in you  
You've got me making second glances  
And I'm liking what I see  
Second chances never looked so good to me

Half of me says I should run to you  
Half of me says run away  
Half of me wants what the other half tells me is wrong  
So how did you ever  
Get me this way

You've got me taking second chances  
Like I swore I'd never do  
Every day goes by  
I find a reason why

I should believe in you  
You've got me making second glances  
And I'm liking what I see  
Second chances never looked so good to me

Oh oh oh  
Oh oh

Making second glances  
And I'm liking what I see  
Second chances never looked so good to me  
Oh oh no  
Second chances never looked so good to me

Like I swore I'd never do  
Every day goes by  
I find a reason why  
I should believe in you

You've got me making second glances  
And I'm liking what I see  
Second chances never looked so good to me  
Oh like I swore I'd never do  
Every day goes by  
I find a reason why...
