

# The Greatest Love

B.J. Thomas

Ohh ohh ohh oh  
Your other love  
Buys you pretty clothes  
And all the fine things  
That Heaven only knows  
I wish I could

Your other love dances and he sings  
And he swings and he says all the witty little things  
That a playboy should

Oh he's got money  
He's got charm  
And when you're walking arm in arm  
It hurts me so  
But I want you to know

It's not easy  
Heaven knows I've tried  
To wish the best to you  
And push myself aside

It takes the greatest love  
That you'll ever find  
To let you walk away  
Leaving me behind  
That's the greatest love

Oh yes it is  
Oh Ohh ohh ohh

Your other love  
He's got the power  
To entertain you  
Each and every hour  
Of the day and night

Your other love  
He's got the ways and the means  
To show you all the wild scenes  
Where the lights are bright

Oh love should never be possessed  
So don't you cry and be depressed  
You're free to go  
But I still want you to know

It's not easy  
Heaven knows I've tried  
To wish the best to you baby  
And push myself aside

It takes the greatest love  
That you'll ever find  
To let you walk away  
Leaving me behind  
And that's the greatest love

Oh yes it is

Oh it takes the greatest love

Ohh ohhh it takes the greatest love

Ohh it takes the greatest love
