

## There's No Love Like A First Love

B.J. Thomas

I ain't here to start no trouble  
I'm just here as your friend tonight  
Driving through the neighborhood  
Just dropped in because I saw your light

But oh, by the way  
If you need somebody to sit and talk a while  
And maybe bring you a smile  
Then I'll stay

'Cause there ain't no love  
Like a first, very first love  
No starting over  
We just pick it up wherever it falls  
And there ain't no fire  
Like that old desire  
That's burning, that's burning, again

Honey, let's pull back the curtain  
Long time since we shared the morning light  
I'll bet the sun is shining  
It's a perfect day to end a perfect night

But oh, by the way  
If there's a chance  
We can stay, stay together  
Like this forever - then I'll stay

'Cause there ain't no love  
Like a first, very first love  
No starting over  
We just pick it up wherever it falls
