

# This Love Is Forever

B.J. Thomas

First love  
Taught me how to break my heart  
How to wander around in the darkness  
Find my way back to the start  
When a new love  
Would be there to take my hand  
When the same old words I'd always heard  
I'd believe them all over again  
Though I knew it could never be  
I'd always believe when they said to me

This love is forever  
This love is forever  
This will be the one that lasts  
Make up for all the ones in the past  
That never stay together  
This love is forever

Young love  
Was only a stepping stone  
That led me in every direction  
Till I could find where I belong  
Your love  
Is the one I've been searching for  
You make me feel like the others weren't real  
Like I never knew love before  
You don't have to say a word  
'Cause in my heart I've already heard  
You say

This love is forever  
This love is forever  
This will be the one that lasts  
Make up for all the ones in the past  
That never stay together  
This love is forever

This love is forever  
This love is forever
