

We Almost Had It All

B.J. Thomas

Before you go
Take a minute
And lets hold each other
You ought to know

That we did something good
Loving one another
Now we've reached goodbye
But it sure was worth the try

'Cause we almost had it all
And we almost made it through
We came so awfully close
We had so much more than most
We were special me and you

We almost made it shine
And I always will recall
How it seemed that you and me
Were the best that we could be
Before we hit the wall
We almost had it all

In times like ours
It's not easy
Building dreams together
We touched the stars

But we couldn't hold on
Till we reached forever
The magic got away
But I don't regret a day

'Cause we almost had it all
And we almost made it through
We came so awfully close
We had so much more than most
We were special me and you

We almost made it shine
And I always will recall
How it seemed that you and me
Were the best that we could be
Before we hit the wall
We almost had it all

Looking back on all the good times and the bad
Despite of what we might have missed
I love the love we had

We almost made it shine
And I always will recall
How it seemed that you and me
Were the best that we could be
Before we hit the wall
We almost had it all

And we almost made it shine
And it seemed that you and me
Were the best that we could be
Before we hit the wall
We almost had it all
