

What Your Love Did for Me

B.J. Thomas

Remember when I didn't have a dream to call my own
So blinded by my pride that I could not see
Remember me, the one who said I'll make it all alone
Take a look at what Your love did for me

I've got life, I've got laughter
I've got happy ever after
And I've got dreams
And they're finally coming true

I've got joy, I've got music
I've got love and I'll never lose it
And I've got Heaven on earth
'Cause I've got you

I was on a trip alone not going anywhere
I guess I didn't know just what love could be
Then You came and touched my life and told me that You care
Take a look at what Your love did for me

I've got life, I've got laughter
I've got happy ever after
And I've got dreams
And they're finally coming true

I've got joy, I've got music
I've got love and I'll never lose it
And I've got Heaven on earth
'Cause I've got you

I've got life, I've got laughter
I've got happy ever after
And I've got dreams
And they're finally coming true

Oh, I've got joy, I've got music
I've got love and I'll never lose it
And I've got Heaven on earth
'Cause I've got you

I've got life, I've got laughter
I've got happy ever after
And I've got dreams
And they're finally coming true
I've got joy
